

# A how-to guide on measuring Roller Shutters

by Standard Rolling Shutters Pte Ltd

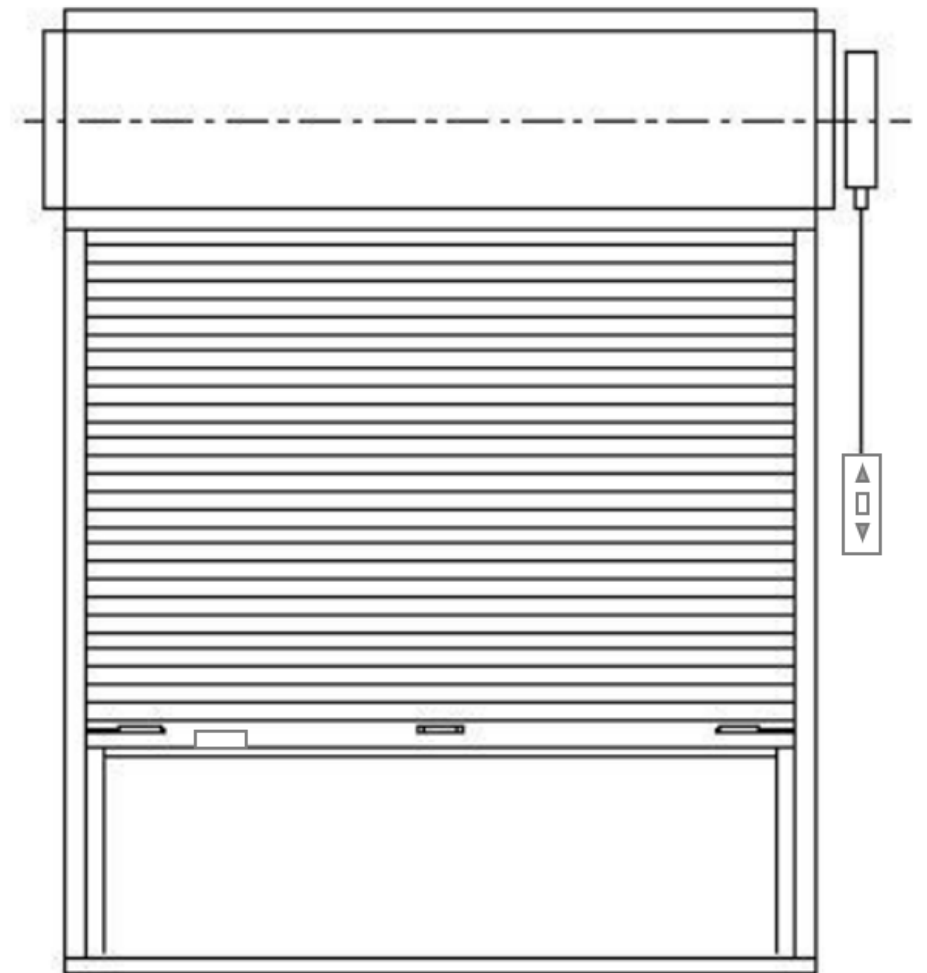

## Step 1: Measuring the Width

The roller shutter has a pair of vertical guides to lead the slat curtain up and down while in operation. Take the measurements (in mm) which includes the 2 vertical guides.

Width Measurement:

\_\_\_\_\_mm

## Step 2: Measuring the Height

(A) Take measurement of the roller shutter box.

Box Measurement:

\_\_\_\_\_mm

(B) Take measurement from the top of the roller shutter slat curtain to the floor level.

Height Measurement:

\_\_\_\_\_mm
